

## Project Partners Meeting Notes – 5/12/10

### Present:

- Tim Adams
- Sandy Mason
- Cari Golden
- Mike O'Neill
- Chris Lundberg
- Dahvi Wilson
- John Carney (by phone)
- Janine Jolley

1. Review of plan for building a CViz model
2. Discussion of how the model will be used, and plan of attack for reviewing and updating the spreadsheet that Dahvi created as a first draft to guide model construction from the public input generated from our values workshops.
  - a. Committee agrees that the model should start by focusing on the Victor impact area.
  - b. Committee agrees that we will host a public review of the first draft of the model once we finish it to offer the chance to incorporate more things that we may have missed the first time. This meeting will be structured with an open house at the beginning for people to interact personally with the model and ask any questions they may have. This will be followed with a creative demonstration of the model, including a visual presentation that shows how we have progressed from one step to the next.
  - c. Dahvi will send version of the spreadsheet to the Committee. Committee will review and get comments back by Tuesday, May 18 at 4pm.
  - d. Dahvi will send out a reminder to the Committee members.
3. Next steps
  - a. Dahvi will work with Sunrise and the City to figure out what data sets are available for building this model.
  - b. Janine suggests using a study that came out in 2008 from the Chamber of Commerce for some of this data.
  - c. Janine suggests always having better food at meetings.
  - d. Janine accepts invitation to join the Committee.
4. Next meeting: **WEDNESDAY JUNE 9, 9am at the City Building**
